

The extended day at Chelsea Academy allows our students to develop their academic, practical and social skills further.

Chelsea Academy offers students a wide choice of activities, clubs and opportunities meaning that every individual will feel inspired to continue learning beyond the parameters of the formal school day.

Extended provision supports students with their independent learning skills to ensure they have the capability to become successful lifelong learners

Chelsea Academy's enrichment programme is a unique opportunity for students to direct their own learning in and beyond the national curriculum.

Students can choose to become a specialist in an area of interest or they can choose to do something they have never learned before.
