

CHELSEA ACADEMY A LEVEL RESULTS 2017

Chelsea Academy are celebrating another great set of A2 and AS level results. 52% of grades at A2 were A* to B with a number of subject areas having all B's and above at A2.

Principal, Matt Williams said "I am delighted and very proud of all of our Sixth Form students who received their A level results today. This year group have made outstanding progress when compared to their starting points and should see the Academy's progress results being in at least the top 10% of schools nationally. These fantastic results can be attributed to the outstanding teaching and pastoral support that all students receive at Chelsea Academy. As well as excelling academically, we are proud that the students have taken advantage of all the amazing extracurricular opportunities we offer which ensure that they have the skills and experiences universities and employers look for. I wish all of our year 13 students success at the universities they will now be attending".

We are especially proud of the following students who have achieved exceptional results.

Zake Ahmed
