### **Subject content and assessment information**

The Pearson Edexcel Level 1/Level 2 GCSE in Spanish (9-1) allows students to develop their ability to communicate with Spanish native speakers in both speech and writing. They will study across a variety of contexts relevant to their age and interests and will also develop a greater awareness of culture of Spanish-speaking communities and countries. Students will need to develop and use their knowledge and understanding of Spanish grammar progressively through their course of study. Grammar requirements are contained in the grammar list

To help students build on their range of vocabulary, a list is provided of words that students are expected to use and understand. These lists are not exhaustive but are intended as a guide; students at both tiers will be required to understand and respond to familiar words (appropriate to the tier) that are not on the lists.

### **Subject aims and learning objectives**

- The aims and objectives of this qualification are to enable students to:
- Develop their ability to communicate confidently and coherently with native speakers in speech and writing, conveying what they want to say with increasing accuracy
- Express and develop thoughts and ideas spontaneously and fluently
- Listen to and understand clearly articulated, standard speech at near normal speed
- Deepen their knowledge about how language works and enrich their vocabulary in order for them to increase their independent use and understanding of extended language in a wide range of contexts
- Acquire new knowledge, skills and ways of thinking through the ability to understand and respond to a rich range of authentic spoken and written material, adapted and abridged, as appropriate, including literary texts
- Develop awareness and understanding of the culture and identity of the countries and communities where the language is spoken

- Be encouraged to make appropriate links to other areas of the curriculum to enable bilingual and deeper learning, where the language may become a medium for constructing and applying knowledge
- Develop language-learning skills both for immediate use and to prepare them for further language study and use in school, higher education or employment
- Develop language strategies, including repair strategies.

## **Themes and topics**

Questions across all four language skills are set in common contexts, addressing a range of relevant contemporary and cultural themes. They are organised into five themes, each broken down into topics and subtopics.

The five themes are:

- Identity and culture
- Local area, holiday and travel
