

Remote education provision: information for parents/carers

October 2026

This information is intended to provide clarity and transparency to students and parents or carers about what to expect in the event of any remote education. This applies to where remote provision is in place for longer than two days. This provision does not apply to students on off site direction placements at other schools.

At Chelsea Academy our ultimate aim is to try and follow the intended curriculum whether students are in school, working from home/ hospital setting, or a combination of the two. In exceptional cases (e.g. identified significant medical need) and by arrangement, the Academy uses the **Academy 21** platform and supports students to access this in a limited number of core academic subjects. Students will normally access this onsite at the Academy.

In the event of any prolonged period of Academy closure lesson resources will be uploaded onto Google classroom and more detailed guidance will follow. Video lessons will also be used to enable students to follow the curriculum. These may be live or pre-recorded. In addition, lessons or activities provided by approved partners such as the Oak National Academy, which match our intended curriculum, may be used.

When students are accessing remote learning and there is a teacher/ tutor present online, they must have their camera switched on at all times.
